Rebekah's Story

Rebekah is a wonderfully active three and half year old with lots of energy to spare. She lives with her mommy and daddy and her younger sister Sarah in rural Banks, Oregon where they work and where daddy is a volunteer firefighter/emt. Rebekah has had developmental delays including Cerebral Palsey and other neurological issues throughout her short life and has recently been diagnosed with Ewing's Sarcoma, a bone and soft tissue cancer that has spread throughout her face, head and neck. It is not treatable by surgery and extensive chemo therapy and radiation have begun.

Rebekah's medical situation has devastated their family emotionally and financially and they need all the support they can get from the community at large. Please visit the web pages shown on the other side of this poster, share Rebekah's story with everyone you know and thank the business where you saw this for supporting Rebekah and her family through these tough times.
